SIPAD SYSTEMS INC. Appoints The Murray Percival Company and Battleship Technologies As Sales Representatives

**Well-established Rep Groups will help expand the SIPAD
presence in the Midwest and Southeast**

[10/1/2011] – SIPAD Systems Inc announced the addition of two well established manufacturers' representative groups to their sales force.

Battleship Technologies is an electronics manufacturer's rep company covering NC, SC, GA, TN, AL, and MS. Battleship Technologies represents a select group of manufacturers and serves OEMs in market segments such as computers, telecommunications, industrial, consumer and military/aerospace, both direct and through distribution. The SIPAD process will complement their line of printed circuits as well as their customers using components and other custom engineered products.

In addition, SIPAD Systems has signed an agreement with The Murray Percival Company to cover the Midwest including Michigan, Indiana, Ohio and Western Pennsylvania. The Murray Percival Company is a 50-year old sales rep firm for the electronics industry. Founded in 1960, the Murray A. Percival Company provides a wide array of equipment, processes and consumables to the printed circuit board assembly and repair industries. Representing over 50 different manufacturers, they maintain a multi-state technical sales force and provide on-demand shipping of over 3,000 products throughout the continental United States.

SIPAD solid solder deposit (ssd) replaces stencil printing with a more predictable, repeatable and dependable attachment method. SIPAD Systems applies SIPAD to complex surface mount printed circuit boards enabling the attachment of all surface mount parts including very small, fine pitch and blind termination components, by hand or machine, with perfect results.

SIPAD Systems Inc. is a 10-year old Georgia-based independent SIPAD solid solder deposit service bureau offering SIPAD ssd coating services to OEM's, CEM's and PCB facilities throughout the U.S..
